

## COLUMBUS CLOSURE PROJECT WALK THROUGH GUIDANCE

- Offerors arrive at CCP JN-11 conference room no earlier than 15 minutes before scheduled walk-through time. Offerors should wear clothing appropriate for a site walk-through, however, safety shoes are not required.
- DOE welcomes offeror and introductions are made.
- DOE provides questions to offeror in the JN-11 conference room.
- Offeror identifies walk-through leader and assigns questions to Key Resources and determines appropriate route.
- DOE leads offeror through the PCMs in JN-6 and provides recorder to offeror.  
NOTE: Copies of recordings will not be made available to offerors.
- Offeror initiates the walk-through using any or all of the route identified on the maps. The offeror clearly identifies the question being answered and records each answer. DOE times each response (5 minute limit per question).
- Offeror returns to JN-6 when all the walk-through questions have been answered.
- DOE leads offeror back through the PCMs in JN-6 and returns to the JN-11 conference room.
- DOE determines if any clarification questions based on the offeror's responses are needed and asks those questions as required.
- DOE closes.

NOTE: The first floor of JN-3 interior and the first and second floors of JN-2 interior are available for walk-through purposes as shown on the attached maps. Due to on-going work activity in JN-1, the interior of JN-1 will not be available. However, the high bay roll-up door will be open for purposes of the walk-through.
